July 8, 2008

Dear Dave and Family,

We will be forever grateful that you and your family business, has made our dream of a beautiful home on a lot, with a spectacular view come true. Our original order for a home three years ago was not with you and due to signing a non-disclosure document we can not mention the name of the dealer who took three years of our lives in a battle to get our money back, nor name the manufacturer who's, home fell apart before we even took delivery. Our faith in a manufactured home was gone.

You Dave, and Jay and everyone who works for your company gave us back our belief that there are people who stand by their word and the product they sell, our belief in trusting a business, and our belief in manufactured housing was renewed. We have yet to finish our unpacking but have already started to enjoy the wonderful triple wide Cavco Durango that we purchased through you. From start to finish commitments made by you and your company have been kept, deadlines were met, problems were resolved promptly and with a good attitude. A family business builds business and personal relationships by working together through the good times and bad and the strength of character is clearly shown in every aspect of your business.

If we have any influence on the public who after all, are making the most expensive purchase of their lives, it would be to say you can put your trust in Kingman Quality Homes, and don't make the mistakes we did, a dealer who handles every aspect of your home purchase from start to finish and the employees, not sub contractors who work for that dealer makes your decision easy, buy your future home from

KINGMAN QUALITY HOMES

Dave if anyone would like a tour around our home we would be proud to show it to them call us any time.

Thank you so much

Sincerely

Chris and Doug Nanfito
