Kingman Quality Homes, LLC  
3440 E Northfield Ave.  
Kingman AZ 86409

To The Whole Family,

We did a considerable amount of research prior to deciding on a manufactured home dealership worthy of doing business with. We live in a very rural area and have to travel nearly seven miles of dirt roads that are difficult in the best of times. After listening to and witnessing some of the horror stories that our neighbors went through in purchasing manufactured homes we were very concerned about what company we chose to do business with.

We chose Kingman Quality homes because they had a word of mouth good solid reputation and they are a full service dealership with their own transportation and set-up equipment.

Now that we are in our home, we must say "We made the right decision." From the day we placed the order to the day we took possession, every stage of the process was on time and as promised. Once the house was delivered to the site, not a single day was wasted in the set-up process. It has indeed been a pleasure in doing business with you.

I can now tell my neighbors and anyone else interested in purchasing a manufactured home that Kingman Quality Homes is definitely the place to go. Thank you for a quality business experience.

Sincerely,

Landon & Nancy Pippin
